

# GREGORY OFFNER

**PLEASE BE AWARE OF THE BOLDED  
WORD “*irk*” - AS IT IS PRONOUNCED “er-k”**

I'm so excited to introduce today's keynote speaker.

Gregory Offner is an author, TedX speaker, and workforce strategist who is considered one of the leading voices shaping the future of work.

However, prior to all that he spent most of his life entertaining and engaging audiences around the world as a professional musician and dueling piano performer.

Today he's going to share his unique perspective on how to get the best performance out of ourselves, and create a culture of collaboration and engagement.

Or as he told me earlier: I'm on a mission to take the “irk” out of work.

Please give a warm welcome to Gregory Offner!
